ABOUT OUR SESSIONS

PROGRAMS

I generally prefer to run full, personalised programs for the dogs that come through my books where we really get a look at the whole dog, and cover all areas that need work, thus getting a better result overall – these programs include a LOT of support for the owner as well (just as important!); ALL of my online content, free access to my online courses, online help from me both during and after the program and unlimited group class access. If you're interested in a program to get the best out of your dog let me know, and I can send you the details.

BUT! I understand sometimes there are just a few smaller issues, or you want to test the waters and see what I'm about...

ONE-OFF SESSIONS

In this case, a one-off session is perfect. This session runs for approx 1.5 hours at your home or a nearby park. We can look at a few basic issues, chat and trial a few different techniques with a few different tools (where applicable) and chat about what a good plan would be moving forward for you to be able to reach these smaller goals.
